This is to advise you that the student named above has been admitted to treatment at our Marlboro, NJ inpatient facility and will be unable to attend school for the period that they will be in residential care. As you know, NJAC 6A:16-10.2, holds school districts responsible to make arrangements to provide alternative instruction for such students and we will be contacting you directly to make these arrangements.

New Hope contracts with the Monmouth-Ocean Educational Services Commission and provides the subject specific educational need of the student through the New Jersey Virtual School. This academic component is fully integrated into the adolescent's treatment with teachers, professionals, and supervisory staff working closely as part of a multi-disciplinary treatment team. Our objective is to insure that district educational plans are successfully implemented in a context that is sensitive to the student's clinical status. This component to our care will also allow your district to effectively and economically meet its obligation to provide high quality educational services and contribute to the successful treatment of the student temporarily in our care.

Under this arrangement, New Hope I.B.H.C. will provide report cards upon discharge from the program and monthly attendance records. Your district will be invoiced monthly at a rate of \$550.00 for any partial or full week that a student is in our care. This fee covers the cost of materials and instruction for two-hour school days covering the four major subject areas in coordination with the Individualized Education Plans that we will coordinate with you.

As indicated, we will be contacting you directly to complete educational arrangements for the above student. If you have any questions in the meantime, please contact the Education Department directly at either education@newhopeibhc.org or (732) 946-3030 extension 2417.

Sincerely,

Marge Ruchaevsky, CFO
